

**CT/MRI 2004
Program**

SOUTHPORT ROOMS	
FRIDAY 30TH JULY 2004	
08:00-08:30	CT Physics Refresher - Thomas Flohr
08:30-09:05	Coronary Artery Disease: Risk Assessment with MDCT- Bernd Wintersperger
09:05-09:40	Coronary CTA: Benefits, Limitation and Evolution- Bernd Wintersperger
09:40-10:15	Pulmonary Functional Imaging – Hiroto Hatabu
10:15-10:45	Morning Tea
10:45–11:20	CT Dose Refresher – Thomas Flohr
11:20-11:55	Multislice Reconstruction Made Easy– Thomas Flohr
11:55–13:30	Lunch
13:30–14:40	Practical Approach to HRCT – Hiroto Hatabu
14:40–15:10	Afternoon Tea
15:10–15:45	Multidetector CT of the Urinary Tract – Alain Lavoipierre
15:45-16:20	CT of the Small Bowel – Frank Parrish
SATURDAY 31ST JULY 2004	
08:00-8:30	MSCT in Chest Trauma – Lindsay Rowe
08:30-09:05	MSCT in Abdominal Trauma – Lindsay Rowe
09:05-10:15	MSCT Assessment Of Blunt Cervical Trauma - David Lun
10:15-10:45	Morning Tea
10:45–11:55	MSK CT – Shaun Fowler
11:55–13:30	Lunch
13:30–14:05	Volumetric Expiratory CT – Hiroto Hatabu
14:05-14:40	Thyroid & Parathyroid Lesions: Imaging Considerations and Controversies – Laurie Loevner
14:40–15:10	Afternoon Tea
15:10–15:45	CT Colonography: An Update – Richard Mendelson
15:45-16:20	MSCT of Crohn's Disease- Richard Mendelson
SUNDAY 1ST AUGUST 2004	
08:30-09:05	Imaging of Cortical Malformations- Kristina Prelog
09:05-09:40	Inner Ear Complications of Meningitis- Kristina Prelog
09:40-10:15	MRCP vs Cholangiogram in paediatric liver transplant patients- Christopher Wong
10:15-10:45	Morning Tea
10:45–11:20	CTPA for PE – Hiroto Hatabu
11:20-11:55	CTA – Ruben Sebben

GOLD COAST ROOM	
FRIDAY 30TH JULY 2004	
08:00-8:30	Parallel Imaging: The Need for Speed- Kirsten Moffat
08:30-10:15	Nasopharynx and Parapharyngeal Pathology & Imaging of the Osteomeatal Unit and Complications of Sinusitis – Mahmood Mafee
10:15-10:45	Morning Tea
10:45–11:20	Practical MR Imaging of Articular Cartilage – John Feller
11:20-11:55	MRI of Bone Marrow Update – John Feller
11:55–13:30	Lunch
13:30–14:05	The Skull Base: Normal Anatomy & Imaging of Pharyngeal Cancer–Laurie Loevner
14:05–14:40	Infratentorial Masses- Laurie Loevner
14:40–15:10	Afternoon Tea
15:10–15:45	MR Imaging of Cardiac Morphology and Function- Bernd Wintersperger
15:45-16:20	MR Assessment of CAD – Bernd Wintersperger
SATURDAY 31ST JULY 2004	
08:00-8:30	MRI of Peripheral Nerve Pathology – David Lisle
08:30-09:05	MRI Sport Injuries of the Shoulder – John Feller
09:05-09:40	“Digital” MRI: the Fingers and Toes – John Feller
09:40-10:15	MR of the Hip – James Linklater
10:15-10:45	Morning Tea
10:45–11:20	CNS Infections- Laurie Loevner
11:20-11:55	MRI & CT Correlates of Sinonasal Pathology – Laurie Loevner
11:55–13:30	Lunch
13:30–14:05	Contrast-Enhanced Cardiac MRI– Guenther Schneider
14:05-14:40	Contrast-Enhanced MRA in Paediatrics – Guenther Schneider
14:40–15:10	Afternoon Tea
15:10–16:20	Acute and Chronic Otomastoiditis and their Complications: The Role of CT and MRI – Mahmood Mafee
SUNDAY 1ST AUGUST 2004	
08:30-09:05	Applications of Delayed Enhancement in Cardiac MRI – Toni Sinclair
09:05-09:40	The Role of MRI in Post Operative Congenital Heart Disease- Richard Slaughter
09:40-10:15	MSK at High Field: Initial Experiences – Ron Shnier
10:15-10:45	Morning Tea
10:45–11:20	Degenerative Disease of the Spine – Charles Lott
11:20-12:25	PET Overview – John Feller
